

## Frame heaters

### „KHK“ micanite – heating element

#### PRODUCT FEATURES

- ✓ Adjusted heating power
- ✓ Different connection voltage
- ✓ Variable height
- ✓ Heat protection jacket possible
- ✓ High quality material
- ✓ Connection cables, plugs and connecting elements
- ✓ Customized versions
- ✓ Made in Germany

#### TECHNICAL DETAILS

##### Connection voltage

230 Volt AC, 400 Volt,  
Special voltage according to customer specifications

##### Material

Stainless steel

##### Frame element

Dimensionally stable and corrosion free

##### Temperature

Temperature range up to 350°C

##### Heating capacity

Surface load 3,5 W/cm<sup>2</sup>  
up to 5,0 W/cm<sup>2</sup>

##### Electrical connection

CEE connection fitting  
Fixed connection fitting  
With connection cable and plug  
Special version available

##### Special feature

Short heating-up time due to low mass  
Quick disassembly and assembly

##### Options

holes and breakthroughs  
Holes with threaded tab  
Recesses, bevels  
thermal protection insert  
Ceramic version possible  
Special shapes according to customer specifications
